

“Transplantation through the keyhole”

IET London, Savoy Place
Friday 20th April 2012.

09:00 Registration
09:10 Introduction and welcome, **Professor Derek Manas**
09:20 Setting the scene;- Live donation in the UK, Trends and changes
Mr Peter Veitch

The laparoscope in Kidney transplantation **Chair; Mr Nizam Mamode**

09:40 Points of view; live renal donation
09:45 Total laparoscopic live donation **Mr Naeem Soomro**
09:55 Hand-assisted live donation **Mr Titus Augustine**
10:05 Finger assisted open donor nephrectomy **Prof Nadey Hakim**
10:15 Extra-peritoneal laparoscopic **Mr Nicos Kessarlis**
10:25 Discussion
10:45 Single port laparoscopic live donation
Professor Rolf Barth, Maryland USA

11:15 Coffee

The laparoscope in Liver Transplantation **Chair; Professor Derek Manas**

11:30 Laparoscopic resection of hepatocellular carcinoma as a bridge to transplantation.
Professor Daniel Cherqui, Weill Cornell, NY, USA
12:00 Laparoscopic live donation of the Liver
Professor Daniel Cherqui, Weill Cornell, NY, USA
12:30 Discussion
13:00 Lunch

Parallel Sessions

The laparoscope in the recipient

Chair; **Mr Neil Parrott**

- 14:00 Peritoneal access surgery and the role of the laparoscope
Professor Mike Nicholson
- 14:15 Laparoscopic management of the post-transplant lymphocele
Mr Bimbi Fernando
- 14:30 Implanting the complex kidney after laparoscopic donation
Mr Geoff Koffman
- 14:45 Innovations in laparoscopic renal implantation
Mr Nizam Mamode
- 15:00 Expanding the kidney donor pool in the laparoscopic era
Mr Peter Veitch

The laparoscope in the donor

Chair; **Mr Nicos Kessar**

- 14:00 Optimal and better imaging in the live renal donor
Dr Phil Haslam
- 14:15 Vessel number and laterality in renal donation; influences on technique.
Professor Rolf Barth, USA
- 14:30 My near misses
Mr Titus Augustine
Mr Peter Veitch
Mr Nicos Kessar
- 14:45 Training in laparoscopic transplantation and trainee insight
Mr Ben Lindsay
- 15:00 The simulator in laparoscopic training
Mr Naeem Soomro

15:15 Coffee

15:30 Plenary Session
“**Looking to the future through the keyhole**”
Professor Daniel Cherqui, Mount Sinai, USA
Professor Rolf Barth, Maryland USA

16:10 Meeting summary and finishing comments
Mr Chris Watson, President, British Transplantation Society

16:30 Meeting closes

Biographies

Professor Rolf Barth

Rolf Barth is Assistant Professor of Surgery at the University of Maryland School of Medicine specializing in kidney, pancreas and liver transplantation.

Dr Barth received his medical degree and surgical training and continued speciality training in transplant surgery at the University of Wisconsin, Madison.

Dr Barth also performed post-doctoral training in transplant immunology at Massachusetts General Hospital / Harvard Medical School

Professor Daniel Cherqui

Dr. Daniel Cherqui is Professor and Chief of Hepatobiliary Surgery and Liver Transplantation at New York-Presbyterian/Weill Cornell Medical Center. He is an internationally-renowned and highly experienced board-certified surgeon, having performed over 2,000 complex hepatobiliary and liver transplant procedures over the past two decades. He developed innovations in minimally invasive techniques in liver surgery and was the first to use laparoscopic techniques in living donor liver transplantation. Dr. Cherqui is an expert in the management of primary and secondary liver cancer. Under his leadership, the new liver program at NYP/Weill Cornell provides patients with state-of-the-art, personalized, multidisciplinary approach to their liver disease.
