

BTS Annual Congress 2024

5-8 March 2024 | HCC, Harrogate

PROGRAMME CONTENT

ITEM	PAGE NUMBER
Programme Content and Key	2
Tuesday 5th March	3
Wednesday 6th March	4 - 6
Thursday 7th March	7 - 8
Friday 8th March	9 - 10
Moderated Poster Presentations Wednesday 6 March - 17:45	11
Moderated Poster Presentations Thursday 7 March - 12:05	12

Programme Key

Session Content	Session	Location	Food & Beverage
-----------------	---------	----------	-----------------

Tuesday 5th March | DoubleTree by Hilton

TIME	ITEM
09:00 - 11:00	BTS Executive Meeting
12:00 - 17:00	Council Meeting
13:30 - 18:30	Postgraduate Masterclass – Rethinking Resources
	Nursing and AHP Masterclass- Advanced Communication Skills
	BILLIARD ROOM
	DRAWING ROOM
13:30 - 14:00	Registration and welcome
14:00 - 14:05	Introduction and overview of the Postgraduate Masterclass <i>Charlie Brown (Herrick Society President)</i>
14:05 - 14:30	The environmental impact of transplantation
14:30 - 15:00	Carbon footprint: group exercise
15:00 - 15:25	What can be done to improve the environmental impact of surgery?
15:25 - 15:45	Improving sustainability in your centre
15:45 - 16:00	Refreshment break
	Organ utilisation
16:00 - 16:20	Sponsored session: <i>Chiesi</i>
16:20 - 16:40	Why is organ utilisation important?
16:40 - 16:50	Organ utilisation DHSC recommendations
16:50 - 17:10	Organisational approach to organ utilisation
17:10 - 17:55	Organ utilisation: group exercise
17:55 - 18:00	Closing remarks <i>Cat Boffa</i>
	 <i>This meeting has been sponsored by Chiesi by way of exhibition stand space and sponsorship which is limited to funding the administrative costs and educational content of the meeting.</i>
18:00 - 19:30	Drinks Reception
19:45 - 22:00	Presidents Dinner Piccolino Harrogate <i>(by invitation only)</i>

BTS Congress 2024

5-8 March 2024 | HCC, Harrogate

Wednesday 6th March

TIME	LOCATION	ITEM
09:00 - 10:00	Auditorium	Registration and morning coffee
10:00		Welcome: Congress opening
10:15		Opening Plenary <i>Chairs: Krish Menon & Richard Baker</i> What does Melody tell us about UK transplantation? Immunosuppression in the United Kingdom – <i>Michelle Willicombe</i>
11:00		Debate: This house believes that organ procurement centres are a sustainable option for deceased donation <i>Chair: Krish Menon & Richard Baker</i> Pro: Will Chapman Con: Adam Barlow
12:00	Auditorium	Lunch (1hr 15)
12:15 -13:00		BTS Annual General Meeting 2024
13:15 -14:00	Auditorium	Industry sponsored symposium <i>Sponsored by Sandoz Limited</i>

DRAFT

	Auditorium	Queen Suite 2	
14:05 - 15:15	<p>7 of the Best <i>Chairs: Colin Wilson & Nicholas Torpey</i></p> <p>O01: Equitable access and clinical outcomes in organ transplantation: The NHS Value-Based Funding Model outperforms international peers – Hemant Sharma</p> <p>O02: Hypothermic and normothermic machine perfusion in deceased-donor kidney transplantation: Cochrane review and meta-analysis – Sam Tingle</p> <p>O03: It is safe to perform non-lung solid organ transplantation from donors with SARS-CoV-2 RNA positivity in the respiratory tract – UK experience – Ines Ushiro-Lumb</p> <p>O04: Plasma-Lyte-148 versus standard intravenous fluid in children receiving kidney transplants (PLUTO): A pragmatic, open-label, randomised controlled trial – Wesley Hayes</p> <p>O05: Is tissue donation possible in the setting of Respiratory Care Unit (RCU) in a district general hospital - 9-month QI project – Paula Barber</p> <p>O06: National survey results on a proposed National Transplant Surgery Mentorship Programme (NTSMP) in the United Kingdom – Bishow Bekhyat Karki</p> <p>O24: Oxygenated hypothermic machine perfusion (HMPO2) of the pancreas; comparing a 'continuous' and an 'end-ischaemic' approach in a porcine circulatory death model – Mohamed Elzawhry</p>	<p>Dragon's Den <i>Session organisers: Kaitlin Mayne & Charlie Brown</i></p> <p>Submissions are invited annually for the BTS Dragons' Den competition. The competition is hosted at the Annual Congress in the style of the popular TV show with trainees pitching their proposals to a panel of clinical academics with experience of transplant research. The competition is supported by surgeons, physicians, statisticians and other key stakeholders including patient/public involvement representatives and is a valuable opportunity for trainees to receive early support to further develop their ideas into successful trial proposals.</p> <p>The competition is open to medical & surgical trainees of all grades and early career researcher allied health professionals. Collaborative and trainee society submissions are encouraged.</p> <p>Clinical trial proposals can relate to any solid organ transplantation setting including transplant work-up, pre-, peri- and post-operative settings and long term follow up.</p>	
15:20 - 16:05	<p>Industry sponsored symposium Imlifidase-Enabled Kidney Transplantation <i>Sponsored by Hansa Biopharma Limited</i></p>		
	Auditorium	Queen Suite 1	Queen Suite 2
16:10 - 17:40	<p>Diversity in transplantation <i>Chairs: Ellie Asgari & Anya Adair</i></p> <p>Psychology of teams – diversity: rethinking resources <i>Gurch Randhawa</i></p> <p>Women in transplant – Debate: There are barriers to progressing in transplant surgery <i>For: Colin Wilson</i> <i>Against: Isabel Quiroga</i></p> <p>Socioeconomic, gender and ethnic diversity – Panel discussion: Where are we now, what do we want in the future and how do we get there? <i>Fungai Dengu, Hilary Patel, Stuart Falconer, Menna Clatworthy</i></p>	<p>Educational Symposia: Anaesthetics & Critical Care (BARTA) <i>Chairs: Nicoletta Fossati & Dan Harvey</i></p> <p>Welcome and introduction – What is BARTA now? <i>Nicoletta Fossati & Vanessa Tucker</i></p> <p>Quality improvement in renal transplant anaesthesia Preoperative assessment – <i>Vanessa Tucker</i> ERAS for transplantation – <i>Lisa Burnapp</i> Haemodynamic monitoring and intraoperative fluids during renal transplant – <i>Andris Klucniks</i></p> <p>Resource management: theatres and postoperative monitored care Theatre access for deceased donor kidney recipients - Race against the clock – <i>Nick Inston</i> A survey reviewing ITU utilisation for renal transplant recipients <i>Peter Russell & Vanessa Tucker</i></p> <p>Discussion and Q&A BARTA – where next? <i>Nicoletta Fossati & Vanessa Tucker</i></p>	<p>Retrieval Session <i>Chairs: Shahid Farid & Aimen Amer</i></p> <p>House debate. The house believes that NRP is the best method to retrieve DCD organs in Cardiothoracic Transplantation in the UK <i>For: Simon Messer</i> <i>Against: John Dark</i></p> <p>Sustainability of NORS Strategies for survival – <i>Cecelia McIntyre</i></p> <p>Training of organ retrieval surgery in the UK The future of the surgical trainee – <i>Peter Friend</i></p>

17:45-18:30	Moderated posters MP001 to MP009 <i>Judges: Nick Torpey & Caroline Wroe</i>	Moderated posters MP0010 to MP017 <i>Judges: Cat Boffa & Frank Dor</i>	Moderated posters MP018 to MP026 <i>Judges: Varuna Aluvihare & Anya Adair</i>
	Exhibition Hall		
18:25-19:30	Welcome Reception <i>Dragon's Den Winner Announcement</i>		

DRAFT

Thursday 7th March | Harrogate Convention Centre

Auditorium			
08:00	<p>MDT Plenary: Rethinking Resource <i>Chairs: Shahid Farid & Caroline Wroe</i> People: Peer educators – <i>Bushra Riaz & Ifrah Raza</i> MedTech: Use of Point of care testing in transplantation – <i>Jon Murray and Hyder Latiff</i> Biodegradables: The role of biodegradable stents in transplant surgery – <i>Deepak Joshi</i> Panel Discussion and Q&A</p>		
09:15 Refreshment/Coffee break			
Auditorium		Queen Suite 1	Queen Suite 2
09:45	<p>Educational Symposia: Organ utilisation recommendations: meeting the challenge <i>Chairs: Derek Manas & Lisa Burnapp</i></p> <p>Implementation Steering Group for Organ Utilisation (ISOU): Making a difference – <i>John Forsythe</i> What do patients expect to see if we are putting them at the heart of everything we do? – <i>Fiona Loud</i> Collaboration- how far can we go? – <i>Gareth Jones</i> How can we deliver a sustainable workforce in the current climate? <i>Rommel Ramanan</i> Innovation and technology- looking into the blue yonder? – <i>Chris Callaghan</i> Data to improve outcomes 'Letters from America' – <i>Dorry Segev</i> Commissioning 101: what you need to know – <i>Richard Fluck</i></p>	<p>Basic Science session Combating Ageing <i>Chairs: Maria Kaisar & Arthi Anand</i></p> <p>How autophagy prevents immune senescence – <i>Katja Simon (V)</i> Cardiac senescence and senolytics in heart disease – <i>Georgina Ellison-Hughes</i> Combating ageing in kidney – <i>Katie Mylonas</i></p> <p>QUOD Update – <i>Sarah Cross</i></p> <p>O07: What drives age-associated chronic kidney disease in older donors? Investigating the role of TN – <i>Dawnya Behiyat</i></p>	<p>Educational Symposia: Nursing and AHP Symposium <i>Chairs: Katie Morley & Lucy Dames</i></p> <p>Keynote: Dominic Summers</p> <p>N1: The development of a nurse-led journal club, placing nurse research at the forefront of research education – <i>Tim Owen Jones</i> N2: Early post-transplant ureteric stent removal reduces the incidence of UTIs – <i>Emma-Louise Kent</i> N3: Evaluation of DCD Assessment Tool – <i>Cara Murdoch</i> N4: Increasing complexity and collaboration requirements in renal transplantation – a case study – <i>Katie Cunningham</i></p>
Auditorium			
11:20 (45 mins)	<p>Industry sponsored symposium <i>Sponsored by Chiesi Limited</i></p> <div style="text-align: right; font-weight: bold; font-size: 1.2em;"> </div>		
12:05	<p>Moderated posters MP027 to MP034 <i>Judges: Ginny Quan & Jas Parmar</i></p>	<p>Moderated posters MP035 to MP042 <i>Judges: Rommel Ramanan & Sapna Shah</i></p>	<p>Moderated posters MP043 to MP050 <i>Judges: Matt Welberry-Smith & Katie Morley</i></p>
12:40 Lunch			

	Auditorium		
13:40	<p>Medawar Medal presentations <i>Chairs: Richard Baker & Krish Menon</i> <i>In recognition of Peter Medawar the "father" of transplantation immunology, and founding Society chairman, the Society awards two prestigious medals at each Annual Congress to the young doctors/scientists presenting the best clinical and scientific papers.</i></p> <p>M1: Altered intestinal barrier and immunoregulatory gut-derived metabolites contribute to acute rejection in renal transplantation – <i>Fernando Yuen Chang</i> M2: The Kidney Transplantation in Older People (KTOP) Study: Impact of frailty on outcomes – <i>Amarpreet Thind</i> M3: Profiling immune cell responses in chronic rejection after lung transplantation using imaging mass cytometry – <i>Saskia Bos</i> M4: Machine perfusion and liver transplantation outcomes; a Cochrane review and meta-analysis – <i>Sam Tingle</i> M5: Composition of the neutralising antibody response predicts risk of BK virus viraemia in renal transplant recipients – <i>Stephanie Chong</i> M6: Improved survival prediction for kidney transplant outcome prediction using Artificial Intelligence-based models: Development of a UK Deceased Donor Kidney Transplant Outcome Prediction (UK-DTOP) Tool – <i>Hatem Ali</i> M7: HLA Epitope Electrostatics - a novel methodology to compare HLA epitope electrostatic potential and predict HLA-DQ immunogenicity – <i>Hannah Copley</i> M8: Duration of asystole does not affect liver graft outcomes when recovered using normothermic regional perfusion – <i>Subankar Paul</i></p>		
15:45	Refreshment break		
16:30 (45 mins)	<p>Industry sponsored symposium <i>Sponsored by Takeda</i></p> 		
	Auditorium	Queen Suite 1	Queen Suite 2
17:20	<p>Clinical Oral Presentations <i>Chairs: Caroline Wroe & Ellie Asgari</i></p> <p>O08: Mortality in diabetes: Simultaneous islet and kidney transplantation is associated with significant survival benefit – <i>Rebecca Varley</i> O09: Artificial Intelligence Assisted Risk Prediction in Organ Transplantation: A UK Live-Donor Kidney Transplant Outcome Prediction (UK-LTOP) Tool – <i>Hatem Ali</i> O10: Mortality risk for kidney transplant candidates with diabetes on the waiting list: glass half full or empty? – <i>Raja Rashid</i> O11: Donor Cystatin-C association with posttransplant graft function – <i>Ioannis Michelakis</i> O12: Geographical inequity of access to renal transplantation: centre practice or demographic differences in wait-listed populations? – <i>Rebecca Roberts</i></p> <p>PITHIA report – <i>Gavin Pettigrew</i></p>	<p>Calne Williams Medal Presentations <i>Chairs: Joerg Pollock & Barbara Fiore</i></p> <p>CW1: Organ Quality Assessment for Livers (OrQA-L): Real-time visual assessment of steatosis during retrieval using machine learning models – <i>Georgios Kourounis</i> CW2: Donor alcohol history and liver transplant outcomes: national cohort study – <i>Kin Ng</i> CW3: Outcomes of donation after circulatory death livers treated with thrombolysis on ex situ normothermic machine perfusion – <i>Rohit Gaurav</i> CW4: The impact of ischaemic type biliary lesions on healthcare costs after liver transplantation with grafts from donors after circulatory death – <i>James Halle-Smith</i> CW5: Early allograft dysfunction and ischaemic cholangiopathy in liver transplants after normothermic machine perfusion – <i>Carlo Ceresa</i> CW6: Balancing access to liver transplantation whilst minimising donor liver travel: a national allocation modelling study – <i>Katie Connor</i></p>	<p>Basic & Translational Science Oral Presentations <i>Chairs: Sian Griffin & Maria Kaisar</i></p> <p>O13: Circulating TNFα, TNFR1 and TNFR2 Levels in deceased donors negatively associate with posttransplant kidney function – <i>Sarah Fawaz</i> O14: Novel methods for testing small bowel viability under different preservation conditions by ex vivo machine perfusion (MP) in a large animal model – <i>Jake Bastian</i> O15: De novo donor specific antibody (DSA) development is preceded by specific loss of regulation of B-dependent Th1 CD4+ T cell responses to the DSA Human Leucocyte Antigen (HLA) but not to other mismatched donor HLA – <i>Sumoyee Basu</i> O16: Chaotropic disruption - a potential enabler to HLA incompatible transplantation? – <i>Victoria Wood</i> O17: Targeting sphingosine-1-phosphate receptor-1 protects vascular endothelial integrity during human ex vivo lung perfusion – <i>Jenny Gilmour</i></p> <p>Update UKODTRN – <i>Sian Griffin</i></p>
18:20	Congress closes		
20:00	<p>Gala Dinner Theme: World Book Day</p>		

Friday 8 March – Harrogate Convention Centre

TIME	ITEM			
08:30	Registration and morning coffee			
	<table border="1"> <thead> <tr> <th>Auditorium</th> <th>Queen Suite 1</th> <th>Queen Suite 2</th> </tr> </thead> </table>	Auditorium	Queen Suite 1	Queen Suite 2

11:35-12:15	Refreshment break
	Auditorium
12:15-13:40	<p>NHSBT statistics & clinical studies <i>Chairs: Richard Baker & Rachel Johnson</i></p> <p>Overview of organ donation and transplantation – <i>Lisa Mumford</i></p> <p>Donors after brain death – <i>Chloe Brown</i></p> <p>Updates in living donation – <i>Matthew Robb</i></p> <p>Impact of age-mismatch on outcomes after liver transplant – <i>Rhiannon Taylor</i></p> <p>Pancreas transplantation from DCD donors – <i>Claire Counter</i></p> <p>DCD heart transplant activity – <i>Rachel Hogg</i></p> <p>The first year of a national ex-situ machine perfusion registry for livers – <i>Susanna Madden</i></p> <p>NHSBT Clinical Trials Unit – Efficient trials – <i>Helen Thomas</i></p>
13:40	<p>Keynote: Hoffenberg Lecture <i>Chairs: Krish Menon & Matt Welberry-Smith</i></p> <p>Human trafficking and modern slavery in organ transplantation – the Metropolitan Police perspective <i>Detective Superintendent Andrew Furphy</i></p>
14:20	Congress closing

DRAFT

MODERATED POSTER PRESENTATIONS | WEDNESDAY 6 MARCH – 17:45

Prog Number	Title	Presenting	Room
MP001	Non-invasive diagnosis of renal allograft acute cellular rejection through active Granzyme B in urine using a novel probe: a potential point of care test	Stephen Knight	Auditorium
MP002	Patients with multi-solid organ transplants have excellent clinical outcomes and quality of life: Results from 'UNIQUE' – a 20-year NHSBT study	Alicia Paessler	Auditorium
MP003	The impact of pancreas transplantation on secondary diabetic complications: a systematic review	Gayathri Giri	Auditorium
MP005	Kidney transplant failure, acute and chronic kidney disease before initiation of dialysis in the UK: Linking routinely collected secondary care data to the UK Renal Registry	Matthew Beresford	Auditorium
MP006	Islet allo-autotransplant 12 years following simultaneous kidney-pancreas transplant	Katie Connor	Auditorium
MP007	Survey of current anaesthetic practice in renal transplant	Elliott Lonsdale	Auditorium
MP008	Renal transplant outcomes in plasma cell dyscrasias and AL amyloidosis after treatment with daratumumab	Amy Needleman	Auditorium
MP009	Use of Uromune vaccine to prevent recurrent UTIs in kidney transplant recipients	Emma-Louise Kent	Auditorium
MP010	Dual kidney transplantation: Two good or double trouble?	Charlotte Hitchins	Queen Suite 1
MP011	Outcomes of kidney transplantation in older recipients: Is age just a number?	Vikrant Thakur	Queen Suite 1
MP012	Obesity in kidney transplant recipients – prevalence and outcomes in patients receiving a steroid sparing immunosuppression protocol	Abdul Rafay	Queen Suite 1
MP013	Transplant renal artery stenosis (TRAS): Characteristics and long term follow up of a single centre experience	Manujaya Godakandage	Queen Suite 1
MP014	Does TIVA affect renal transplant outcomes?	Tom Harris	Queen Suite 1
MP015	Technical considerations for small (<15kg) paediatric allograft transplantation: A UK experience with an exclusive extraperitoneal approach and iliac anastomosis	Iram Haq	Queen Suite 1
MP016	Transplant ureteric stent removal using Isiris® in an ambulatory outpatient setting	Holly Strachan	Queen Suite 1
MP017	Simultaneous Islet Cell and kidney transplantation: An initial single centre experience.	Yuthika Jeyasuresh	Queen Suite 1
MP018	The evolution of late liver re-transplantation: A large UK single centre experience	Anisa Nutu	Queen Suite 2
MP019	Impact of bariatric surgery on Steatotic liver disease and liver transplant patients: An umbrella review with meta-analysis	Abdul Rahman Hakeem	Queen Suite 2
MP020	Localised liver injury during normothermic machine perfusion has no impact on short term liver transplant outcomes	Jack Martin	Queen Suite 2
MP021	Pregnancy outcomes in liver transplant recipients	Yooyun Chung	Queen Suite 2
MP022	Predicting risk of death at transplant assessment for patients with primary sclerosing cholangitis	Beatrice Lofthouse	Queen Suite 2
MP023	Liver transplantation for primary sclerosing cholangitis with normothermic regional perfusion	Rohit Gaurav	Queen Suite 2
MP024	Impact of donor transaminases on liver transplant utilisation and unnecessary organ discard: national registry cohort study	Joseph Dobbins	Queen Suite 2
MP025	Early glucose concentration during ex situ normothermic machine perfusion predicts liver outcomes	Chris Watson	Queen Suite 2
MP026	The role of Normothermic Regional Perfusion (NRP) in recovering untranslatable DCD livers	Dafydd Locker	Queen Suite 2

MODERATED POSTER PRESENTATIONS | THURSDAY 7 MARCH - 12:05

Prog Number	Title	Presenting	Room
MP027	Reviewing data monthly to identify modifiable factors in length of process to establish why targets are consistently not met in the London region	Georgina Hobbiger	Auditorium
MP028	Parallel Pathways - A case study demonstrating how parallel pathways can improve outcome	Natalie Ashley	Auditorium
MP029	A Network approach to specialist nursing recruitment in non-transplanting centres to improve access to transplantation	Alastair Tallis	Auditorium
MP030	Successful bivalirudin use in a patient with heparin-induced thrombocytopenia undergoing heart after liver domino transplantation (HALT-D) using modified ultrafiltration.	Ramanish Ravishankar	Auditorium
MP031	Impact of donor obesity on graft and recipient survival outcomes following liver transplantation: A systematic review and meta-analysis	Amr Alnagar	Auditorium
MP032	Exploring the feasibility of multi-visceral organ retrieval for ex vivo machine perfusion in a large animal model	Jake Bastian	Auditorium
MP033	Can therapeutic agents prevent primary graft dysfunction after lung transplantation?	Andréa Poupard	Auditorium
MP034	Time to death and graft outcome in DCD simultaneous pancreas-kidney transplantation	Abdullah Malik	Auditorium
MP035	The variation in practice of the Living Donor Kidney Transplant Pathway in the UK	Katie Nightingale	Queen Suite 1
MP036	Hypomagnesaemia in kidney transplant recipients prescribed tacrolimus & proton pump inhibitors	Nicholas Gangoo	Queen Suite 1
MP037	Outcomes in sensitised patients undergoing kidney transplantation with non-depleting antibody induction therapy.	Ria Nagpal	Queen Suite 1
MP038	Risk factors and outcomes for developing recurrent IgA nephropathy after kidney transplantation – single centre cohort study	Vivienne Ralph	Queen Suite 1
MP039	Outcomes of kidney transplant recipients classified as high-risk	Harry Spiers	Queen Suite 1
MP040	Improving access to transplantation: The effect of a dedicated new starter haemodialysis clinic	Joseph Cairns	Queen Suite 1
MP041	Post-operative wound complications and morbidity in renal transplants - comparing obesity and high-risk patient group outcomes.	Tushar Hari	Queen Suite 1
MP042	Tubuloreticular inclusions: A new prognostic biomarker in renal transplantation	Sarah Gleeson	Queen Suite 1
MP043	Assessing quality of life in solid organ transplant recipients: a systematic review of the development, content, and quality of available condition- and transplant-specific patient-reported outcome measures	Ben Rimmer	Queen Suite 2
