

BTS Annual Congress 2024

5-8 March 2024 | HCC, Harrogate

PROGRAMME CONTENT

ITEM	PAGE NUMBER
Programme Content and Key	2
Tuesday 5th March	3
Wednesday 6th March	4 - 6
Thursday 7th March	7 - 8
Friday 8th March	9 - 10
Moderated Poster Presentations Wednesday 6 March – 17:45	11
Moderated Poster Presentations Thursday 7 March - 12:05	12

Programme Key			
Session Content	Session	Location	Food & Beverage

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

Tuesday 5th March | DoubleTree by Hilton

TIME	ITEM
10:00 - 12:00	BTS Executive Meeting
13:00 - 16:30	Council Meeting
13:30 – 18:30	Postgraduate Masterclass – Rethinking Resources
	Nursing and AHP Masterclass- Advanced Communication Skills
	DRAWING ROOM
	BILLIARD ROOM
13:30 – 14:00	Registration and welcome
14:00 – 14:05	Introduction and overview of the Postgraduate Masterclass <i>Charlie Brown (Herrick Society President)</i>
14:05 – 14:30	The environmental impact of transplantation <i>Mark Harber</i>
14:30 – 15:00	Carbon footprint: group exercise <i>Charlie Brown, Cat Boffa, Mark Harber</i>
15:00 – 15:25	What can be done to improve the environmental impact of surgery? – <i>Peter Labib</i>
15:25 – 15:45	Improving sustainability in your centre <i>John O'Callaghan</i>
15:45 – 16:00	Refreshment break
	Organ utilisation
16:00 – 16:20	Chiesi sponsored symposium: How do we maximise kidney utilisation? <i>Mr Nicholas Inston FRCS PhD, NHSBT Organ Lead for Utilisation, University Hospitals Birmingham NHS Foundation Trust</i>
16:20 – 16:40	Why is organ utilisation important? <i>Susanna Madden</i>
16:40 – 17:00	Organ utilisation DHSC recommendations <i>John Forsythe</i>
17:00 – 17:20	Organisational approach to utilisation – <i>Chris Callaghan</i>
17:20 – 18:20	Organ utilisation: group exercise <i>Cat Boffa and BTS Council</i>
18:20 – 18:30	Closing remarks <i>Cat Boffa</i>
	
	<i>This meeting has been sponsored by Chiesi Limited with funding contributing towards stand space and room hire only, and have had no input into the educational content of the meeting except where stated. Chiesi representatives will be present throughout the meeting.</i>
13:30 – 14:00	Registration and welcome
14:00 – 15:00	Keynote presentation - Communication Excellence – a hostage negotiator's experience <i>Dr Matt Todd, Hostage and Crisis Negotiator</i>
15:00 – 16:00	Clean Language <i>Cathy Miller, Head of Education and Professional Development, NHSBT and Sarah-Jane Plant, Consent and Authorisation Lead PDS</i>
16:00 – 16:30	Refreshment break
16:30 – 17:30	LEAPS Conflict Communication Model <i>Sally Holmes, Professional Development Nurse, Organ Donation</i>
17:30 – 18:30	Civility Saves Lives <i>Helen Silver-MacMahon, Co-founder and Director at Being Human</i>
18:00 – 19:30	Drinks Reception
19:45 - 22:00	Presidents Dinner Piccolino Harrogate (<i>by invitation only</i>)

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

BTS Congress 2024

5-8 March 2024 | HCC, Harrogate

Wednesday 6th March

TIME	LOCATION	ITEM
09:00 - 10:00	Studio	Registration and morning coffee
10:00	Auditorium	Welcome: Congress opening
10:15		Opening Plenary <i>Chairs: Krish Menon & Richard Baker</i> What does Melody tell us about UK transplantation? Immunosuppression in the United Kingdom – <i>Michelle Willicombe</i>
11:00		Debate: This house believes that organ procurement centres are a sustainable option for deceased donation <i>Chair: Krish Menon & Richard Baker</i> <i>Pro: Will Chapman</i> <i>Con: Adam Barlow</i>
12:00	Studio	Lunch (1hr 15)
12:15 -13:00	Auditorium	BTS Annual General Meeting 2024
13:15 -14:00	Auditorium	Finding efficiencies within the NHS; opportunities for improvement in transplantation <i>Industry symposium</i> <i>Sponsored by Sandoz Limited</i> <i>Chair: Frank Dor, Imperial College</i> <i>Andrea Devaney, Oxford University Hospitals</i> <i>Adnan Sharif, Queen Elizabeth Hospital</i> <i>David Thorne, Well Up North Primary Care Network</i>

SANDOZ

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

	Auditorium	Queen Suite 2
14:05 - 15:15	<p>7 of the Best <i>Chairs: Colin Wilson & Nicholas Torpey</i></p> <p>O01: Equitable access and clinical outcomes in organ transplantation: The NHS Value-Based Funding Model outperforms international peers – Hemant Sharma</p> <p>O02: Hypothermic and normothermic machine perfusion in deceased-donor kidney transplantation: Cochrane review and meta-analysis – Sam Tingle</p> <p>O03: It is safe to perform non-lung solid organ transplantation from donors with SARS-CoV-2 RNA positivity in the respiratory tract – UK experience – Ines Ushiro-Lumb</p> <p>O04: Plasma-Lyte-148 versus standard intravenous fluid in children receiving kidney transplants (PLUTO): A pragmatic, open-label, randomised controlled trial – Wesley Hayes</p> <p>O05: Is tissue donation possible in the setting of Respiratory Care Unit (RCU) in a district general hospital - 9-month QI project – Paula Barber</p> <p>O06: National survey results on a proposed National Transplant Surgery Mentorship Programme (NTSMP) in the United Kingdom – Bishow Bekhyat Karki</p> <p>O24: Oxygenated hypothermic machine perfusion (HMPO2) of the pancreas; comparing a 'continuous' and an 'end-ischaemic' approach in a porcine circulatory death model – Mohamed Elzawhry</p>	<p>Dragon's Den <i>Session supported by the BTS Clinical Trials and Research Committee</i> <i>Session chairs: Kaitlin Mayne & Charlie Brown</i></p> <p>Submissions are invited annually for the BTS Dragons' Den competition. The competition is supported by surgeons, physicians, statisticians, and other key stakeholders including patient/public involvement representatives and is a valuable opportunity for trainees to receive early support to further develop their ideas into successful trial proposals.</p> <p>D01: Determining outcomes in Falling transplanted kidneys: the DEFINE prospective multicentre cohort study – Sacha Moore</p> <p>D02: The XR-NORS Trial: A Feasibility study integrating immersive Extended Reality (XR) into multiorgan retrieval training – Imeshi Wijetunga</p> <p>D03: Does lung-protective ventilation during DBD donor optimisation impact abdominal organ recovery and organ-recipient outcomes? Alexander Twist</p> <p><i>Dragons: Sapna Shah, Andrew Fisher, Helen Thomas</i></p>
15:20	<p>Imlifidase-Enabled Kidney Transplantation <i>Industry symposium</i> <i>Sponsored by Hansa Biopharma Limited</i> <i>Chair: David Game</i></p> <p>The French Experience – <i>Professor Carmen Lefaucheur, St Louis Hospital, Paris</i> Panel discussion UK nephrology expert opinion - <i>Dr Nicholas Torpey, Addenbrooke's Hospital, Cambridge</i> UK immunology expert opinion - <i>Professor Kay Poulton, Manchester Royal Infirmary</i></p>	
16:05 - 16:30	Refreshment break	

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

	Auditorium	Queen Suite 1	Queen Suite 2
16:30	<p>Diversity in transplantation <i>Chairs: Ellie Asgari & Anya Adair</i></p> <p>Psychology of teams – diversity: rethinking resources <i>Gurch Randhawa</i></p> <p>Women in transplant – Debate: There are barriers to progressing in transplant surgery <i>For: Colin Wilson</i> <i>Against: Isabel Quiroga</i></p> <p>Chair: Menna Clatworthy Socioeconomic, gender and ethnic diversity – Panel discussion: Where are we now, what do we want in the future and how do we get there? <i>Fungai Dengu, Hilary Patel, Stuart Falconer, Menna Clatworthy</i></p>	<p>Educational Symposia: Anaesthetics & Critical Care (BARTA) <i>Chairs: Nicoletta Fossati & Dan Harvey</i></p> <p>Welcome and introduction – What is BARTA now? <i>Nicoletta Fossati & Vanessa Tucker</i></p> <p>Quality improvement in renal transplant anaesthesia Preoperative assessment – <i>Vanessa Tucker</i> ERAS for transplantation – <i>Lisa Burnapp</i></p> <p>Haemodynamic monitoring and intraoperative fluids during renal transplant – Andris Klucniks</p> <p>Resource management: theatres and postoperative monitored care Theatre access for deceased donor kidney recipients - Race against the clock – <i>Nick Inston</i> A survey reviewing ITU utilisation for renal transplant recipients. <i>Peter Russell & Vanessa Tucker</i></p> <p>Discussion and Q&A BARTA – where next? <i>Nicoletta Fossati & Vanessa Tucker</i></p>	<p>Retrieval Session <i>Chairs: Shahid Farid & Aimen Amer</i></p> <p>Debate. This house believes that ex-situ perfusion is a better use of resources for cardiothoracic organs <i>For: John Dark</i> <i>Against: Stephen Large</i></p> <p>Sustainability of NORS Strategies for survival – <i>Cecelia McIntyre</i></p> <p>Training of organ retrieval surgery in the UK The future of the surgical trainee – <i>Peter Friend</i></p>
18:00	<p>Moderated posters MP001 to MP009 <i>Judges: Nicholas Torpey & Caroline Wroe</i></p>	<p>Moderated posters MP010 to MP017 <i>Judges: Cat Boffa & Frank Dor</i></p>	<p>Moderated posters MP018 to MP026 <i>Judges: Varuna Aluvihare & Richard Baker</i></p>
	Studio/Exhibition Hall		
18:40 - 19:40	<p>Welcome Reception <i>Dragon's Den Winner Announcement</i></p>		

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

Thursday 7th March | Harrogate Convention Centre

Auditorium			
08:00	<p>MDT Plenary: Rethinking Resource <i>Chairs: Shahid Farid & Caroline Wroe</i> People: Peer educators – <i>Bushra Riaz & Ifrah Raza</i> MedTech: Use of Point of care testing in transplantation – <i>Hyder Latif and Jonathan Murray</i> Biodegradables: The role of biodegradable stents in transplant surgery – <i>Deepak Joshi</i> Panel Discussion and Q&A</p>		
09:15	Refreshment/Coffee break		
Auditorium		Queen Suite 1	Queen Suite 2
09:45	<p>Educational Symposia: Organ utilisation recommendations: meeting the challenge <i>Chairs: Derek Manas & Lisa Burnapp</i></p> <p>Implementation Steering Group for Organ Utilisation (ISOU): Making a difference – <i>John Forsythe</i> What do patients expect to see if we are putting them at the heart of everything we do? – <i>Fiona Loud</i> Collaboration- how far can we go? – <i>Gareth Jones</i> How can we deliver a sustainable workforce in the current climate? <i>Rommel Ramanan</i> Innovation and technology- looking into the blue yonder? – <i>Chris Callaghan</i> Data to improve outcomes 'Letters from America' – <i>Dorry Segev</i> Commissioning 101: what you need to know – <i>Richard Fluck</i></p>	<p>Basic Science session Combatting Ageing <i>Chairs: Maria Kaisar & Arthi Anand</i></p> <p>How autophagy prevents immune senescence – <i>Katja Simon (V)</i> Cardiac senescence and senolytics in heart disease – <i>Georgina Ellison-Hughes</i> Combatting ageing in kidney – <i>Katie Mylonas</i></p> <p>QUOD Update – <i>Sarah Cross</i></p> <p>O07: What drives age-associated chronic kidney disease in older donors? Investigating the role of TN – <i>Dawnya Behiyat</i></p>	<p>Educational Symposia: Nursing and AHP Symposium <i>Chairs: Katie Morley & Lucy Dames</i></p> <p>Keynote: Transplant research for nurses and AHPs: what, why and how? - <i>Dominic Summers</i></p> <p>N1: The development of a nurse-led journal club, placing nurse research at the forefront of research education – <i>Tim Owen Jones</i> N2: Early post-transplant ureteric stent removal reduces the incidence of UTIs – <i>Emma-Louise Kent</i> N3: Evaluation of DCD assessment tool – <i>Cara Murdoch</i> N4: Increasing complexity and collaboration requirements in renal transplantation – a case study – <i>Katie Cunningham</i></p> <p><i>Judges: Mark Roberts, JP Nunes, Alison Smith</i></p>
Auditorium			
11:20 (45 mins)	<p>Balancing Lives: Navigating Equity in Organ Transplantation <i>Industry symposium</i> Sponsored by Chiesi Limited Chair: <i>Frank J.M.F. Dor, Head of Transplantation, consultant transplant and general surgeon, Hammersmith Hospital, Imperial College, London</i></p> <p>An expert panel discussion delving into the complex landscape of inequalities in organ transplantation. This discussion will address the multifaceted aspects of this critical topic, exploring disparities in access to transplantation, understanding the patient perspective and scrutinizing post-transplant outcomes.</p> <p>Panel: <i>Jabeer Butt OBE, CEO Race Equality Foundation</i> <i>Hilaria Asumu, Kidney Transplant Recipient, NHSBT Organ Donation Ambassador and Campaigner for Equality in Healthcare and</i> <i>Adnan Sharif, Consultant Nephrologist, QE Birmingham</i></p>		
12:05	<p>Moderated posters MP027 to MP034 <i>Judges: Ginny Quan & Jas Parmar</i></p>	<p>Moderated posters MP035 to MP041 <i>Judges: Rommel Ramanan & Sapna Shah</i></p>	<p>Moderated posters MP043 to MP050 <i>Judges: Matt Welberry-Smith & Katie Morley</i></p>

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

12:40	Lunch		
	Auditorium		
13:40	<p>Medawar Medal presentations <i>Chairs: Richard Baker & Krish Menon</i> <i>In recognition of Peter Medawar the "father" of transplantation immunology, and founding Society chairman, the Society awards two prestigious medals at each Annual Congress to the young doctors/scientists presenting the best clinical and scientific papers.</i> Judges: Arthi Anand, John Casey, Pedro Catarino, Will Chapman, Sian Griffin, Simon Knight, Foad Rouhani</p> <p>M1: Altered intestinal barrier and immunoregulatory gut-derived metabolites contribute to acute rejection in renal transplantation – Fernando Yuen Chang M2: The Kidney Transplantation in Older People (KTOP) Study: Impact of frailty on outcomes – Amarpreet Thind M3: Profiling immune cell responses in chronic rejection after lung transplantation using imaging mass cytometry – Saskia Bos M4: Machine perfusion and liver transplantation outcomes; a Cochrane review and meta-analysis – Sam Tingle M5: Composition of the neutralising antibody response predicts risk of BK virus viraemia in renal transplant recipients – Stephanie Chong M6: Improved survival prediction for kidney transplant outcome prediction using Artificial Intelligence-based models: Development of a UK Deceased Donor Kidney Transplant Outcome Prediction (UK-DTOP) Tool – Hatem Ali M7: HLA Epitope Electrostatics - a novel methodology to compare HLA epitope electrostatic potential and predict HLA-DQ immunogenicity – Hannah Copley M8: Duration of asystole does not affect liver graft outcomes when recovered using normothermic regional perfusion – Subankar Paul</p>		
15:45	Refreshment break		
16:30 (45 mins)	<p>Post-transplant CMV: Real-world experiences of changing standard practice. <i>Industry symposium</i> <i>Sponsored by Takeda</i> <i>Chair: Mr Colin Wilson</i> <i>Speakers: Mr Colin Wilson, Newcastle Hospitals and Dr Muir Morton, Manchester University Hospitals</i></p> 		
	Auditorium	Queen Suite 1	Queen Suite 2
17:20	<p>Clinical Oral Presentations <i>Chairs: Caroline Wroe & Ellie Asgari</i></p> <p>O08: Mortality in diabetes: Simultaneous islet and kidney transplantation is associated with significant survival benefit – Rebecca Varley O09: Artificial intelligence assisted risk prediction in organ transplantation: A UK Live-Donor Kidney Transplant Outcome Prediction (UK-LTOP) tool – Hatem Ali O10: Mortality risk for kidney transplant candidates with diabetes on the waiting list: glass half full or empty? – Raja Rashid O11: Donor Cystatin-C association with posttransplant graft function – Ioannis Michelakis O12: Geographical inequity of access to renal transplantation: centre practice or demographic differences in wait-listed populations? – Rebecca Roberts</p> <p>Outcomes of introduction of a National Digital Pathology Service - the Pithia Trial – Gavin Pettigrew</p>	<p>Calne Williams Medal Presentations <i>Chairs: Joerg Pollok & Rebeca Mateos</i> Judges: Krish Menon & Will Chapman</p> <p>CW1: Organ Quality Assessment for Livers (OrQA-L): Real-time visual assessment of steatosis during retrieval using machine learning models – Georgios Kourounis CW2: Donor alcohol history and liver transplant outcomes: national cohort study – Kin Ng CW3: Outcomes of donation after circulatory death livers treated with thrombolysis on ex situ normothermic machine perfusion – Rohit Gaurav CW4: The impact of ischaemic type biliary lesions on healthcare costs after liver transplantation with grafts from donors after circulatory death – James Halle-Smith CW5: Early allograft dysfunction and ischaemic cholangiopathy in liver transplants after normothermic machine perfusion – Ioannis Kostakis CW6: Balancing access to liver transplantation whilst minimising donor liver travel: a national allocation modelling study – Katie Connor</p>	<p>Basic & Translational Science Oral Presentations <i>Chairs: Sian Griffin & Maria Kaisar</i></p> <p>O13: Circulating TNFα, TNFR1 and TNFR2 Levels in deceased donors negatively associate with posttransplant kidney function – Sarah Fawaz O14: Novel methods for testing small bowel viability under different preservation conditions by ex vivo machine perfusion (MP) in a large animal model – Jake Bastian O15: De novo donor specific antibody (DSA) development is preceded by specific loss of regulation of B-dependent Th1 CD4+ T cell responses to the DSA Human Leucocyte Antigen (HLA) but not to other mismatched donor HLA – Sumoyee Basu O16: Chaotropic disruption - a potential enabler to HLA incompatible transplantation? – Victoria Wood O17: Targeting sphingosine-1-phosphate receptor-1 protects vascular endothelial integrity during human ex vivo lung perfusion – Jenny Gilmour</p> <p>Update UKODTRN – Sian Griffin</p>
18:20	Congress closes		
20:00	Gala Dinner Theme: World Book Day		

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

Friday 8 March – Harrogate Convention Centre

TIME	ITEM
08:30	Registration and morning coffee
	Auditorium
09:00-10:45	<p>Best Practice: Pancreas & Kidney Chairs: <i>Rommel Ravanan & Frank Dor</i></p> <p>Debate: This house believes an 18-year-old should have unrestricted access to be considered for living kidney donation For: <i>Pippa Bailey</i> Against: <i>Jonathon Olsburgh</i> Discussants: <i>Greg Moorlock, Suzanne Whitehead, Harvinder Kaur Dulku</i></p> <p>The “BTS Title Bout” The role of AI as a Decision Support System Clinician - <i>Colin Wilson vs AI - Hassan Ugail</i></p>
	Queen Suite 1
	Queen Suite 2
	<p>Best Practice: Liver - The high-risk patient – when is transplant futile? Chairs: <i>Varuna Aluvihare & Matthew Cramp</i></p> <p>When do you define futility? – Where should we set the bar? <i>Richard Baker</i></p> <p>ACLF and ALF – Futility and lessons learnt – Will Bernal</p> <p>Assessment of high-risk patient: Anaesthetists' perspective – <i>Helen Usher</i> Surgeons' perspective – <i>Rebeca Mateos</i></p> <p>The high-risk patient – when is transplant futile? <i>Abdul Hakeem</i></p> <p>Panel discussion and Q&A session: How to approach the high-risk case Chairs: <i>Varuna Aluvihare & Matthew Cramp</i> Panel: <i>Derek Manas</i></p>
	<p>Best Practice: Cardio/Thoracic Chairs: <i>Jas Parmar & Andy Fisher</i></p> <p>Modelling new lung allocation policies using a simulation engine to assess impact – Samuel Kennedy</p> <p>Donor and recipient age mismatch in lung transplantation: a European perspective on impact – Pauline Pradere, Paris</p> <p>O18: UK experience of direct procurement of lungs with ongoing abdominal normothermic regional perfusion from controlled DCD donors – Luke Williams</p> <p>Debate: Thoraco-abdominal NRP should be the standard of care for all DCD heart and lung retrievals – Pedro Catarino & Dale Gardiner</p>
	Auditorium
	Queen Suite 1
10:50-11:35	<p>Workforce sustainability Chairs: <i>Lisa Burnapp & Hussain Khambalia</i></p> <p>Sustainability and Certainty in Organ Retrieval (SCORE) – Ian Currie & Sarah Beale</p> <p>The trainees view – Kaitlin Mayne & Charlie Brown</p> <p>The nursing view – Laura Stamp</p>
	<p>Free Communications Oral Presentations Chairs: <i>Chris Callaghan & Jas Parmar</i></p> <p>O19: Predicting determinants of successful transplantation using Supra-Marginal (DRI-Donor Risk Index >1.5) deceased donor kidneys – Zaid Al-Ameidy</p> <p>O20: The ASK trial: a feasibility randomised controlled trial investigating strategies to improve access to kidney transplantation ISRCTN Registry ISRCTN10989132 https://doi.org/10.1186/ISRCTN10989132 – Pippa Bailey</p> <p>O21: Medium-term outcomes of en-bloc kidney transplantation from donors under 18kg in a single centre – Imeshi Wijetunga</p> <p>O22: UK donor heart focused echocardiography assessment working group: Current practice and strategy for improving donor heart utilisation – Waqas Akhtar</p> <p>O23: Implementing a values-driven policy in a complex system: What happened when the soft opt-out system of organ donation was implemented in England? – Leah McLaughlin</p>
11:35-12:15	Refreshment break
	Auditorium

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

12:15-13:40	<p>NHSBT statistics & clinical studies <i>Chairs: Richard Baker & Rachel Johnson</i></p> <p>Overview of organ donation and transplantation – <i>Lisa Mumford</i></p> <p>Reduction in DBD donation in the UK – <i>Susanna Madden</i></p> <p>The first year of a national ex-situ machine perfusion registry for livers – <i>Susanna Madden</i></p> <p>Updates in living donation – <i>Matthew Robb</i></p> <p>Impact of age-mismatch on outcomes after liver transplant – <i>Rhiannon Taylor</i></p> <p>Pancreas transplantation from DCD donors – <i>Claire Counter</i></p> <p>DCD heart transplant activity – <i>Rachel Hogg</i></p> <p>NHSBT Clinical Trials Unit – Efficient Trials – <i>Helen Thomas</i></p>
13:40	<p>Keynote: Hoffenberg Memorial Lecture <i>Chairs: Krish Menon & Matt Welberry-Smith</i></p> <p>Human trafficking and modern slavery in organ transplantation – the Metropolitan Police perspective <i>Detective Superintendent Andrew Furphy</i></p>
14:20	Congress closing

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

MODERATED POSTER PRESENTATIONS | WEDNESDAY 6 MARCH – 17:45

Prog Number	Title	Presenting	Room
MP001	Non-invasive diagnosis of renal allograft acute cellular rejection through active Granzyme B in urine using a novel probe: a potential point of care test	Stephen Knight	Auditorium
MP002	Patients with multi-solid organ transplants have excellent clinical outcomes and quality of life: Results from 'UNIQUE' – a 20-year NHSBT study	Alicia Paessler	Auditorium
MP003	The impact of pancreas transplantation on secondary diabetic complications: a systematic review	Gayathri Giri	Auditorium
MP005	Kidney transplant failure, acute and chronic kidney disease before initiation of dialysis in the UK: Linking routinely collected secondary care data to the UK Renal Registry	Matthew Beresford	Auditorium
MP006	Islet allo-autotransplant 12 years following simultaneous kidney-pancreas transplant	Katie Connor	Auditorium
MP007	Survey of current anaesthetic practice in renal transplant	Elliott Lonsdale	Auditorium
MP008	Renal transplant outcomes in plasma cell dyscrasias and AL amyloidosis after treatment with daratumumab	Amy Needleman	Auditorium
MP009	Use of Uromune vaccine to prevent recurrent UTIs in kidney transplant recipients	Emma-Louise Kent	Auditorium
MP010	Dual kidney transplantation: Two good or double trouble?	Charlotte Hitchins	Queen Suite 1
MP011	Outcomes of kidney transplantation in older recipients: Is age just a number?	Vikrant Thakur	Queen Suite 1
MP012	Obesity in kidney transplant recipients – prevalence and outcomes in patients receiving a steroid sparing immunosuppression protocol	Abdul Rafay	Queen Suite 1
MP013	Transplant renal artery stenosis (TRAS): Characteristics and long term follow up of a single centre experience	Manujaya Godakandage	Queen Suite 1
MP014	Does TIVA affect renal transplant outcomes?	Tom Harris	Queen Suite 1
MP015	Technical considerations for small (<15kg) paediatric allograft transplantation: A UK experience with an exclusive extraperitoneal approach and iliac anastomosis	Iram Haq	Queen Suite 1
MP016	Transplant ureteric stent removal using Isiris® in an ambulatory outpatient setting	Holly Strachan & Megan Stephens	Queen Suite 1
MP017	Simultaneous Islet Cell and kidney transplantation: An initial single centre experience.	Yuthika Jeyasuresh	Queen Suite 1
MP018	The evolution of late liver re-transplantation: A large UK single centre experience	Anisa Nutu	Queen Suite 2
MP019	Impact of bariatric surgery on Steatotic liver disease and liver transplant patients: An umbrella review with meta-analysis	Abdul Rahman Hakeem	Queen Suite 2
MP020	Localised liver injury during normothermic machine perfusion has no impact on short term liver transplant outcomes	Jack Martin	Queen Suite 2
MP021	Pregnancy outcomes in liver transplant recipients	Yooyun Chung	Queen Suite 2
MP022	Predicting risk of death at transplant assessment for patients with primary sclerosing cholangitis	Beatrice Lofthouse	Queen Suite 2
MP023	Liver transplantation for primary sclerosing cholangitis with normothermic regional perfusion	Rohit Gaurav	Queen Suite 2
MP024	Impact of donor transaminases on liver transplant utilisation and unnecessary organ discard: national registry cohort study	Joseph Dobbins	Queen Suite 2
MP025	Early glucose concentration during ex situ normothermic machine perfusion predicts liver outcomes	Chris Watson	Queen Suite 2
MP026	The role of Normothermic Regional Perfusion (NRP) in recovering untranslatable DCD livers	Dafydd Locker	Queen Suite 2

This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of this meeting.

'British Transplantation Society Annual Congress 2024' (code: 147651) has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 19 category 1 (external) CPD credit(s). Full conditions of approval are listed in our [guidelines](#).

MODERATED POSTER PRESENTATIONS | THURSDAY 7 MARCH - 12:05

Prog Number	Title	Presenting	Room
MP027	Reviewing data monthly to identify modifiable factors in length of process to establish why targets are consistently not met in the London region	Georgina Hobbiger	Auditorium
MP028	Parallel Pathways - A case study demonstrating how parallel pathways can improve outcome	Natalie Ashley	Auditorium
MP029	A Network approach to specialist nursing recruitment in non-transplanting centres to improve access to transplantation	Alastair Tallis	Auditorium
MP030	Successful bivalirudin use in a patient with heparin-induced thrombocytopenia undergoing heart after liver domino transplantation (HALT-D) using modified ultrafiltration.	Ramanish Ravishankar	Auditorium
MP031	Impact of donor obesity on graft and recipient survival outcomes following liver transplantation: A systematic review and meta-analysis	Amr Alnagar	Auditorium
MP032	Exploring the feasibility of multi-visceral organ retrieval for ex vivo machine perfusion in a large animal model	Jake Bastian	Auditorium
MP033	Can therapeutic agents prevent primary graft dysfunction after lung transplantation?	Andréa Poupard	Auditorium
MP034	Time to death and graft outcome in DCD simultaneous pancreas-kidney transplantation	Abdullah Malik	Auditorium
MP035	The variation in practice of the Living Donor Kidney Transplant Pathway in the UK	Katie Nightingale	Queen Suite 1
MP036	Hypomagnesaemia in kidney transplant recipients prescribed tacrolimus & proton pump inhibitors	Nicholas Gangoo	Queen Suite 1
MP037	Outcomes in sensitised patients undergoing kidney transplantation with non-depleting antibody induction therapy.	Ria Nagpal	Queen Suite 1
MP038	Risk factors and outcomes for developing recurrent IgA nephropathy after kidney transplantation – single centre cohort study	Vivienne Ralph	Queen Suite 1
MP039	Outcomes of kidney transplant recipients classified as high-risk	Harry Spiers	Queen Suite 1
MP040	Improving access to transplantation: The effect of a dedicated new starter haemodialysis clinic	Joseph Cairns	Queen Suite 1
MP041	Post-operative wound complications and morbidity in renal transplants - comparing obesity and high-risk patient group outcomes.	Tushar Hari	Queen Suite 1
MP043	Assessing quality of life in solid organ transplant recipients: a systematic review of the development, content, and quality of available condition- and transplant-specific patient-reported outcome measures	Ben Rimmer	Queen Suite 2
MP044	'A greener gift of life' - assessing the environmental impact of patient travel to a liver transplant clinic. Can we make the liver transplant outpatient service more sustainable?	Mhairi Donnelly	Queen Suite 2
MP045	A qualitative exploratory study: Demand and resource factors experienced by NHS national organ retrieval service staff.	Fiona Cox	Queen Suite 2
MP046	Organ donor registration behaviour: Moving from opt in to opt out in England and impact on decision making in the black African and Caribbean population.	Oluwayomi Adegbaaju	Queen Suite 2
MP047	Weighing the impact of The British Transplantation Society (BTS) against global peers	Hemant sharma	Queen Suite 2
