

JOINT CONGRESS 2025

Nurturing Interdependency

The Brighton Centre, Brighton | Wednesday 12 - Friday 14 March

11 March - Pre-Congress: Nursing and AHP Masterclass | Post-Graduate Masterclass

The BTS NHSBT Joint Congress 2025 has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of the meeting.

'BTS NHSBT Joint Congress 2025' has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 20 category 1 (external) CPD credit(s) (code: 149670). Full conditions of approval are listed in our [guidelines](#).

Congress Programme Order

ITEM	PAGE NUMBER
Programme Content and Key	2
Tuesday 11 March	3
Wednesday 12 March	4 - 6
Thursday 13 March	7 - 10
Friday 14 March	11 - 14
Moderated Poster Presentations Wednesday 12 March	15 - 16
Moderated Poster Presentations Thursday 13 March	16 - 17

Programme Key

Item	Location	Food & Beverage
------	----------	-----------------

TUESDAY 11 MARCH | DoubleTree by Hilton Brighton Metropole

TIME	SESSION/LOCATION	
	Post Graduate Masterclass	Nursing & AHP Masterclass
	Buckingham	Balmoral
13:30 – 14:00	Registration and welcome	
14:00-16:00	<p>Introduction and overview of the Postgraduate Masterclass <i>Emily Thompson/Kaitlin Mayne</i></p> <p>Complex Transplant Listing</p> <p>A challenging paediatric case transitioning to adult care – <i>Varuna Aluvihare & Victoria Kronsten</i></p> <p>Young woman with type 1 diabetes and CKD who wants to have a baby: kidney vs kidney pancreas transplant – <i>Kate Smith-Jackson & Laura Baines</i></p> <p>A challenging H&I case – <i>Miriam Manook</i></p> <p>A challenging anaesthetic case – <i>Ann Ogbemudia</i></p>	<p>14:00 - Author of “The Story of a Heart” The journey of Keira’s heart that was transplanted into Max, resulting in Max and Keira’s law. – <i>Dr Rachel Clarke</i></p> <p>15:00 – Panel Discussion: A selection of people who were interviewed by Dr Clarke <i>Panellists: Sarah Crosby, Clair Ellis, Pradeep Kaul, Alison Kelly</i></p>
15:45 – 16:00	Refreshment break	
16:00-18:00	<p>Sponsored presentation: Transplantation for Tomorrow: An opportunity for future leaders in transplantation – <i>Cat Boffa</i></p> <p>The London Collaborative – <i>Gareth Jones & Tamara Wanigasekera</i></p> <p>Cox-net – <i>Sanjay Sinha</i></p> <p>The UK Liver Transplant Collective – <i>Abdul Hakeem</i></p> <p>Research collaboratives</p> <p>Trainee-led Research Collaboratives and Transplantation – <i>Sam Tingle</i></p> <p>Closing remarks – <i>Cat Boffa</i></p>	<p>16:00 - Resilience and stress response – <i>Corrie Stockton</i></p> <p>17:00 - The Professional Nurse Advocate Role - <i>Charlee Lystor & Laura Owen</i></p>
	 <p><i>This meeting has been sponsored by Chiesi Limited with funding contributing towards room hire, stand space and some meeting subsistence only, and have had no input into the educational content of the meeting. Funding from Chiesi does not contribute in any way towards prizes Chiesi representatives will be present throughout.</i></p>	
18:00	Drinks reception	

WEDNESDAY 12 MARCH | The Brighton Centre

TIME	SESSION/LOCATION
09:15	Registration, refreshments - Exhibition Hall (auditorium 1)
	Auditorium 2
10:00	Welcome – <i>Krish Menon & Derek Manas</i>
10:15-12:15	<p><i>Chair: Richard Baker & Derek Manas</i></p> <p>Opening Session – New Frontiers in Donation and Transplantation</p> <p>Innovation in donation: The Spanish experience - <i>Beatriz Domínguez-Gil</i></p> <p>How will Artificial Intelligence be used in transplantation over the next decade - <i>Ellie Asgari</i></p> <p>Pitch at the Pier: What would you do with a golden ticket?</p> <p>Donation: <i>Dale Gardiner</i>, Liver Transplantations: <i>David Nasralla</i>, Renal Transplantation: <i>Aisling Courtney</i>, Cardiothoracic: <i>Jas Parmar</i></p> <p>Panel discussion: <i>Anthony Clarkson, Elijah Ablorsu, Beatriz Dominguez-Gill, Hilary Patel, Louise Kenny</i></p>
12:15-12:50	BTS Annual General Meeting (Members only)
12:15-13:25	Lunch in Exhibition Hall
	Auditorium 2
13:30-14:15	<p>Industry sponsored symposium: Clinical Experience with Imlifidase-Enabled Kidney Transplants in UK & France</p> <p><i>Chair: Rommel Ramanan</i></p> <p>Oxford Case Study - <i>Phil Mason</i></p> <p>Leeds Case Study - <i>Sunil Daga</i></p> <p>French Experience - <i>Lionel Couzi</i></p>

	Auditorium 2	Syndicate 1&2	Syndicate 3
14:20-15.30	<p>What do transplant recipients/patients want? <i>Chairs: Jessica Jones & Carrie Scuffell</i></p> <p>Lung Recipient - <i>Stephen Jones</i> Kidney and Pancreas Recipient - <i>Daniel Yates</i> Liver Recipient & Joint Head Connect to Work Policy at DWP - <i>Hilary Patel</i> Living with a heart recipient - <i>Tamsin Courtenay</i></p> <p>Panel Discussion: <i>Adnan Sharif, Vicky Gerovasili, Ali Smith, Abdul Hakeem, Zoey Malpus,</i></p>	<p>7 of the best <i>Chairs: Dan Harvey & Chris Callaghan</i></p> <p>O01: Hypothermic Oxygenated Perfusion Ex-situ (HOPE) for preservation and restoration of the small child donor heart. Early experience with HOPE in children demonstrates that the long-awaited solution for paediatric DCD cardiac transplantation is finally here <i>- Louise Kenny</i></p> <p>O02: The use of prone ventilation as part of an organ donor optimisation strategy to facilitate lung retrieval and transplantation following the diagnosis of death using neurological criteria - <i>Sherena Jackson</i></p> <p>O03: Functional Warm ischemic Time in DCD Heart Transplantation: Definitions and outcomes in a 9-year single centre experience - <i>Taimoor Khan</i></p> <p>O04: Development of an efficient dialysis paradigm for use during ex-situ isolated organ perfusion: a pilot study - <i>Alex Sagar</i></p> <p>O05: Outcomes of organs transplanted via the UK Kidney Fast-Track Scheme: an updated analysis <i>- Matthew Robb</i></p> <p>O06: Implementation of a Potential Donor Audit (PDA) tool in NHSBT funded Eye Retrieval Schemes (ERS) <i>- Clare Denison</i></p> <p>O07: Understanding parental decision-making in paediatric organ donation: mixed methods study <i>- Ellie Crane</i></p>	<p>SCORE: A new hope <i>Chairs:: Ian Currie & Phil Walton</i></p> <p>Sustainability and Certainty in Organ Retrieval (SCORE) bringing efficiency across the interdependent pathway <i>- Sarah Beale, Ian Currie & Phil Walton</i></p> <p>Panel Discussion: <i>Dale Gardiner, Julie Whitney, Elijah Ablorsu, Gareth Jones</i></p>

15:30-16:15	Mini-oral poster presentations <i>Moderators: Sapna Shah & Chris Callaghan</i> Pancreas and kidney: MP001, MP002, MP003, MP004, MP006, MP007, MP008	Mini-oral poster presentations <i>Moderators: Katie Morley & Matt Welberry-Smith</i> Sustainability and education: MP009, MP010, MP011, MP013, MP014, MP015, MP016	Mini-oral poster presentations <i>Moderators: Nicholas Torpey & Siân Griffin</i> Science: MP017, MP018, MP019, MP020, MP021, MP022, MP023, MP024
16:15	Refreshments		
	Auditorium 2		
17:00-17:40	Special Plenary Celebrating Donation and Transplantation: 'Out of Tragedy Comes Hope': 30 Years of the Organ Donor Register - Celebrating the Circle of Life <i>Chairs: Lisa Burnapp & Anthony Clarkson</i> Christine Cox - <i>Founder of the Organ Donor Register</i> Lucy Ryan - <i>Heart Recipient & World Transplant Games Participant</i> Chris Howard - <i>Liver Recipient & Social Media Blogger</i>		
	Auditorium 2		
17:40-18:25	BTS NHSBT Awards <i>MC: Dale Gardiner</i> <i>Hosts: Peter Wyman, Richard Baker and Krish Menon</i>		
	Exhibition Hall		
18:30-19:30	Welcome Drinks <i>Exhibition Hall</i>		
18:30-20:00	Skyline Donation Celebration <i>Sky Lounge (invited guests)</i>		

THURSDAY 13 MARCH | The Brighton Centre

TIME	SESSION/LOCATION			
	Auditorium 2	Syndicate 1&2	Syndicate 3	Syndicate 4
08:30-09:45	<p>Patient Safety - How good are we at learning? <i>Chairs: Richard Baker & Olive McGowan</i></p> <p>Welcome and introduction - <i>Olive McGowan</i></p> <p>Patient Safety in the NHS – What have we learnt? - <i>Kirsty McNally</i></p> <p>The house believes that CT scanning should be mandated for all deceased solid organ donors in the UK For: Ian Currie Against: Ian Thomas</p> <p>Case Study - <i>Sanjay Sinha</i></p> <p>Summary and closing remarks - <i>Jeanette Foley</i></p>	<p>Calne Williams Medal presentations <i>Chairs: Krish Menon & Douglas Thorburn</i></p> <p>CW1: The impact of D-HOPE and HOPE on biliary complications: a systematic review and meta-analysis – <i>George Clarke</i></p> <p>CW2: Outcomes following liver transplantation in obese recipients in the UK – a study over four decades - <i>Mehreen Khan-Bhattani</i></p> <p>CW3: Outcomes of UK Liver Transplant National Appeals Panel: A Retrospective Study - <i>Sahil Gupta</i></p> <p>CW5: Histidine-tryptophan-ketoglutarate (HTK) is associated with higher post-reperfusion syndrome in deceased donor liver transplantation: Time for a global rethink? - <i>Sahil Gupta</i></p> <p>CW6: Reducing disparities in liver transplantation wait times: Investigating the role of weight capping for heavier recipients - <i>Jinghuai Tan</i></p> <p>CW7: Normothermic Regional Perfusion Reduces Morbidity Associated with Liver Grafts from Extended Criteria Donors after Circulatory Death - <i>James Halle-Smith</i></p>	<p>Free Communications <i>Chairs: Sapna Shah & Elijah Ablorsu</i></p> <p>O08: The impact of donation after circulatory death (DCD) donation on kidney allograft survival is influenced by donor race: An UNOS registry analysis - <i>Afolarin Otunla</i></p> <p>O09: “Like a bolt out of the blue” Experiences of kidney transplant failure: findings from the IN-FAKT study - <i>Bonnie Venter</i></p> <p>O10: Donor time to death and kidney transplant outcomes; global implications for DCD stand-down times - <i>Samuel Tingle</i></p> <p>O11: Evolution of Racial Equity in UK Kidney Transplantation: A Two-Decade Analysis of Access, Survival, and Outcomes (COBIT-UK Study) – <i>Zaid Al-Ameidy</i></p> <p>O12: Developing risk adjusted consent rate funnel plots for comparison between regional organ donation teams across the UK – <i>Sue Madden</i></p> <p>O13: 10-year analysis of the impact of normothermic regional perfusion in simultaneous pancreas and kidney transplant – <i>Ruth Owen</i></p> <p>O14: Promoting positive conversations about organ donation and supporting</p>	<p>H&I <i>Chairs: Arthi Anand & Sunil Daga</i></p> <p>Debate: this house believes that technological advances in H&I have disadvantaged sensitised patients For: Nicholas Torpey Against: Robert Liwski</p> <p>O15: HLA-ASSESS: A Prognostic Alloimmunity Risk Stratification Algorithm to Improve Deceased-Donor Kidney Allocation and Access to Transplantation for Ethnic Minority Groups - <i>Jon Jim Kim</i></p> <p>What good looks like MDT Delisting and MDT success in HSP through KAS - <i>Adrienne Seitz</i></p> <p>Delisting and MDT working KSS -<i>Deborah Pritchard</i></p> <p>Panel discussion</p>

The BTS NHSBT Joint Congress 2025 has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of the meeting.

		Assessing the impact of Normothermic Machine Perfusion on Liver Utilisation in the UK – the Perfused Liver Utilisation Study (PLUS) - <i>Simon Knight</i>	knowledge mobilisation in NHS Staff: a hashtag “#” series of projects – <i>Natalie Clark</i>	
09:45	Refreshments in Exhibition Hall			
	Auditorium 2		Syndicate 1&2	
10:30-12:30	Medawar Medal presentations <i>Chairs: Richard Baker & Krish Menon</i> M1: Transcriptomic signatures associated with prolonged delayed graft function in human kidneys undergoing ex vivo machine perfusion - <i>Harry Spiers</i> M2: Cold Ischemia Time Alone Does Not Affect Graft Outcomes: A Big Data Analysis of UK Kidney Transplant Registry - CITGO Study – <i>Zaid Al-Ameidy</i> M3: Gene therapy in an explanted patient liver perfused ex situ for 9 days – <i>Teresa Brevini</i> M4: Preventing recurrent UTIs in Kidney Transplant Recipients through vaccination: A pilot study and proposal for a national trial – <i>Emma-Louise Kent</i> M5: FLT3 Ligand is a Novel Marker of Subsequent HCMV Viraemia and Viral Control Post Kidney Transplantation – <i>Farah Latif</i> M6: Willing to Donate? A quantitative and thematic analysis of public attitudes to deceased organ donation in different circumstances – <i>Weiyi Tan</i> M7: Getting a sense of sensitisation: interferon gamma (IFN γ) and interleukin 17 (IL17-A) antigen specific T cell responses distinguish between sensitisation following renal transplantation compared to pregnancy – <i>Sumoyee Basu</i> M8: Does a Subcutaneous Wound Drain in High-BMI Kidney Transplant Recipients Reduce the Risk of Surgical Site Infections? Results from TWIST Trial, a Trainee-led, Multicentre Randomised Controlled Trial – <i>Ahmed Radwan</i>		Nurturing Interdependency to meet the need in Tissue Transplantation <i>Chairs: Amanda Ranson & Jackie Brander</i> The benefits of corneal transplantation and future developments - <i>Fiona Carley</i> How early engagement at the point of referral can maximise opportunities for Tissue Donation – <i>Hannah Oldfield & Dawn Evans</i> Development of Rectus Fascia Sheath as a novel allograft - <i>Richard Lomas</i> Judicial Collaboration – Agreement for Donation <i>Chairs: John Richardson & Becky Clarke</i> Case presentation and panel discussion – <i>Adam Barley</i> Panel Discussion: <i>Huw Twamley, Brett Lockyer, Samantha Halcrow, David Heming, Marc Bowes</i>	
12:40-13:40	Lunch in Exhibition Hall			

	Auditorium 2	Syndicate 1&2	Syndicate 3	Syndicate 4
13:40-14:50	<p>Donation, Retrieval and Transplantation Academy <i>Chairs: Olive McGowan & Cathy Miller</i></p> <p>Introduction - <i>Olive McGowan</i></p> <p>Collaboration between NHSBT and NUN: what have we achieved? - <i>Alan Platt</i></p> <p>How Medical Education in Donation is Evolving – <i>Ben Ivory</i></p> <p>Research outcomes: What educators need to know about striving for more inclusive education by addressing the learning needs of neurodiverse students – A master’s level study - <i>Sue Lee</i></p> <p>Max and Keira’s Legacy: Evaluating the 2019 Deemed Consent Act’s Impact on Specialist Nurse Education Programme - <i>Cathy Miller</i></p> <p>Panel discussion <i>Olive McGowan, Alan Platt, Ben Ivory, Sue Lee, Cathy Miller, Liam Watson</i></p>	<p>Histopathology: Biopsy-based Transcriptomics for Transplant Diagnosis – Are we ready for clinical implementation? <i>Chairs: Desley Neil & Anna Paterson</i></p> <p>Introduction to Biopsy-based RNA measurements for clinical purposes in Transplant Biopsies (cross-organ) - <i>Chris Bellamy</i></p> <p>Debate: Molecular testing for transplant organ diagnosis For: <i>Candice Roufousse</i> Against: <i>Jean-Paul Duong-Van-Huyen</i></p> <p>Panel and audience discussion: Molecular testing for transplant organ diagnosis <i>Desley Neil, Anna Paterson</i></p> <p>O16: Using spatial transcriptomics to assess molecular features of retrieval biopsies – <i>James McCaffrey</i></p>	<p>Best Practice - Liver <i>Chairs: Doug Thorburn & Shahid Farid</i></p> <p>Late declines of deceased donor livers - <i>Rhiannon Taylor</i></p> <p>O17: Patients registered for Liver Transplantation in England: how have socio-demographics changed over the years - <i>Ji Jade King</i></p> <p>Liver transplant collaboratives – Presentations from regional collaboratives South – <i>Jonathan Potts</i> North – <i>Jessica Dyson (V)</i> Midlands – <i>Gwilym Webb</i></p> <p>Round table discussion <i>Regional chairs, Gareth Jones, Varuna Aluvihare</i></p>	<p>Paediatrics <i>Chairs: Chris Callaghan & Hannah Bartlett-Syree</i></p> <p>Update on Paediatric Organ and Tissue Donation in the UK – <i>Omer Aziz & Sarah Jane Plant</i></p> <p>O18: Causes of death among children and young people following kidney transplantation - <i>Stefano Artusa</i></p> <p>Paediatric Transplant Nephrology training and horizon scanning - <i>Ihab Shaheen</i></p> <p>Paediatric Kidney Transplant surgeon training and horizon scanning - <i>Martin Drage</i></p> <p>Panel discussion: <i>Helen Jones, Derek Manas, Omar Masood, Martin Drage, Martin Christian</i></p>
	Auditorium 2			
14:55-15:40	<p>Industry sponsored symposium: Organ Preservation Solutions: From global experience to local practice <i>Chair: Ian Currie</i> <i>Speaker: John Fung</i></p> <p>Panel Discussion: <i>Shahid Farid, Carlo Ceresa</i></p>			
15:40	Refreshments in Exhibition Hall			

The BTS NHSBT Joint Congress 2025 has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of the meeting.

	Auditorium 2	Syndicate 1&2	Syndicate 3	Syndicate 4
16:15	Mini-oral poster presentations <i>Moderators: Lucy Dames & Ian Currie</i> Donation and preservation MP025, MP026, MP027, MP028. MP029, MP030	Mini-oral poster presentations <i>Moderators: Cat Boffa & Cathy Miller</i> Education MP032, MP033, MP034, MP035, MP036 O32: With a little help from the law: Understanding living kidney donors' experiences – Bonnie Venter	Mini-oral poster presentations <i>Moderators: Michael Ramage & Tom Billyard</i> Psycho-social MP038, MP039, MP040, MP041, MP042	Mini-oral poster presentations <i>Moderators: Marius Berman & Jackie Brander</i> Cardio-thoracic/Tissue MP043, MP044, MP045, MP046, MP047, MP048
	Auditorium 2			
16:50	NHSBT Statistics in donation and transplantation <i>Chairs: Derek Manas & Lisa Mumford</i> Overview of organ donation and transplantation: Overview of activity, highlights of collaborations between clinicians and statisticians - <i>Lisa Mumford</i> Updates in organ utilisation: Sharing utilisation data with the community to provide evidence for change - <i>Jenny Mehew</i> Innovations in organ retrieval: Organ damage CUSUMS, perfusion fluid analysis, and NRP - <i>Rachel Hogg</i> Harnessing AI with statistical insights: Benefits and limitations with AI, and current applications - <i>Matthew Robb</i> Clinical trials in organ donation and transplantation: Benefits of collaboration between clinical community and the clinical trials unit - <i>Helen Thomas</i>			
17:55	Sexual misconduct in the NHS Workplace <i>Chairs: Adnan Sharif & Jackie Brander</i> What NHS workforce data tells us about sexual violence - <i>Homa Arshad</i>			
18:25	Close			
19:45	Gala Dinner The BTS Hilton Hoedown Doubletree Hilton			

FRIDAY 14 MARCH | The Brighton Centre

	Auditorium 2	Syndicate 1&2	Syndicate 3
08:30-09:45	<p>Nurturing Interdependency <i>Chairs: Lisa Burnapp & Andrew Fisher</i></p> <p>Donation to retrieval – <i>Tom Billyard</i> Organ offering – <i>Julie Whitney</i> Implantation – <i>Andrew Fisher</i></p> <p>Panel Discussion: <i>Victoria Ker, Helen Tyler, Angela Losekann, Nicholas Inston, Daniel White</i></p>	<p>Science and Innovation <i>Chairs: Arthi Anand & Menna Clatworthy</i></p> <p>O19: Clazakizumab treatment effects on kidney transcriptomes in chronic ABMR - <i>Menna Clatworthy</i></p> <p>O20: Impact of pre-existing HLA specific antibodies on liver transplant outcomes following traditional cold storage (CS) and normothermic machine perfusion (NMP) - <i>Graham Knighton</i></p> <p>O21: Identifying Key Time Points for monitoring of DSA in Predicting Dynamics following HLAi kidney transplantation - <i>Sunil Daga</i></p> <p>O22: Novel assessment of HLA antibody pathogenicity in transplantation: measuring FcR3a engagement – <i>Miriam Manook</i></p> <p>O23: A two-centre randomised controlled trial to determine the optimum dose and route of alteplase and fresh frozen plasma for fibrinolysis during normothermic machine perfusion of the liver - <i>Chris Watson</i></p> <p>O24: Contrast-enhanced ultrasound to assess kidney quality during ex situ normothermic machine perfusion - <i>Samuel Tingle</i></p> <p>O25: The DONAIT Study: Developing a Novel AI based “Donor Assessment & Identification Tool” to Improve Corneal Donation - <i>Anna Fairclough</i></p> <p>O26: Subnormothermic acellular machine perfusion for prolonged preservation of human kidneys – <i>Sarah Hosgood</i></p>	<p>Understanding the Complexity of Multi-Organ Retrieval: Real-World Challenges and Their Impact on Transplant Outcomes <i>Chairs: Rebeca Mateos & Elijah Ablorsu</i></p> <p>Cardiothoracic Representative - <i>Pradeep Kaul</i> Abdominal Representative - <i>Carlos Ceresa</i></p> <p>O27: Artificial intelligence enabled identification and delineation of abdominal organs from retrieval photographs using deep machine learning - <i>Georgios Kourounis</i></p> <p>O28: Computational Blood Flow Modelling in Normothermic Regional Perfusion -- <i>Ian Currie</i></p>
09:45	Coffee stop		

	Auditorium 2			
10:15-10:45	Keynote Presentation <i>Chairs: Krish Menon & Anthony Clarkson</i> All roads lead to Westminster - Zubir Ahmed, MP			
10:45-11:30	Industry sponsored symposium: Post-Transplant CMV - Mission Impossible?! Hear from Leading Experts on Real-Life Case Studies Across the UK <i>Eirini Synodinou</i> <i>Tanzina Haque</i> <i>Sapna Shah</i>			
				
	Auditorium 2	Syndicate 1&2	Syndicate 3	Syndicate 4
11:30-12:45	Viral treatment masterclass (joint with SOTPA) <i>Chairs: Rachel Hilton & Haifa Lyster</i> <i>Moderators: Andrea Devaney & Alison Rowley</i> Newer strategies towards better outcomes in HIV+ kidney transplantation - <i>Frank Post</i> HCV+ deceased organ donation – overcoming the barriers - <i>Claire Kelly</i> HHV-8 in solid organ transplantation – a state-of-the-art update - <i>Ines Ushiro-Lumb</i> O29: The impact of recipient HIV status on post-kidney transplant outcomes - <i>Marena Gray</i> Panel discussion: <i>Rachel Hilton, Andrea Devaney, Alison</i>	Meeting the Need - 2030 Strategy Update <i>Chairs: John Richardson & Liz Middlehurst</i> Strategy overview and welcome - <i>Ben Hume</i> Recipient and Transplant Outcomes, ERAS in transplantation - <i>Carrie Scuffell</i> Research and Innovation - <i>Emma Lawson</i> Diversity and Inclusion - <i>Harpreet Matharu & Winnie Andango</i> Increasing deceased donation - <i>Pascale Withey & Mark Haslam</i>	Best Practice – Cardiothoracic <i>Chairs: Antonio Rubino and Andrew Fisher</i> Cardiothoracic transplantation in UK – <i>Sally Rushton</i> O30: Early graft dysfunction following heart transplantation – do DBD and DCD recipients have the same future? Lu Wang Heart-Liver & Lung-liver: Candidate selection and surgical management - <i>Aaron Ranasinghe</i> Peri-operative & ITU management - Kiran Salaunkey Challenges facing UK cardiothoracic transplantation Surgeons' perspective – <i>Marius Berman</i> Physicians' perspective – <i>Vicky Gerovasili</i>	Dragons' Den <i>Chairs: Farah Latif & Mohamed Elzawahry</i> Dragons': Siân Griffin, Chris Callaghan, Helen Thomas, Caroline Wroe, Muhammad Khurram Update on CRAFT Study – Emily Thompson Update on the HOPP Trial – Mohamed Elzawahry DD1: DECIPHER: Defining Early Complications In Pancreas transplant and the impact on longer term outcomes – Samuel Tingle DD2: Optimising Tacrolimus dosing in Renal transplantation with pharmacogenomic algorithms.(O TACRO study) - Harshavardhan Trichy Sanathkumar

	Rowley, Haifa Lyster, Frank Post, Claire Kelly, Ines Ushiro-Lumb.		<p>DD3: ArchiBoLT: Archimedes biodegradable Biliary Stent in Liver Transplantation (A Phase IIB study of the use of the Archimedes biodegradable biliary stent in Liver Transplantation) - <i>Sahil Gupta</i></p> <p>DD4: Using multi-omics to develop biomarkers of acute allograft rejection and interstitial fibrosis/tubular atrophy in kidney transplantation - <i>Tanguy Lafont</i></p> <p>DD5: Preventing Recurrence of Nephrotic syndrome and Justifying clinical approaches (PRUNE JUICE) – <i>Alice Gage</i></p> <p>Dragon's Den – the competition</p> <p>DD6: The Effect of Perioperative Glycaemic Control in Pancreas Transplant Recipients (Gly-CoP): Feasibility Study – <i>Rory Brown</i></p> <p>DD7: OPTIMISE-KT: An Observational Multicentre dd-cfDNA Platform Study – Improving Standard of Care in Kidney Transplantation – <i>George Nita</i></p> <p>DD8: Tau in Liver perfusion (TuLiP) - <i>Richard Dumbill</i></p> <p>DD9: Multicentre randomised placebo-controlled trial of intraoperative octreotide infusion in liver transplantation - <i>Ilya Kantsedikas</i></p>
12:45	Lunch in Exhibition Hall		
	Auditorium 2	Syndicate 1&2	
13:45-15:00	Best Practice - Kidney and Pancreas <i>Chairs: Sapna Shah & Sanjay Sinha</i>	Ethics and Public Policy <i>Chairs: Michael Ramage & Dan Harvey</i>	

	<p>NHSBT Overview of Pancreas Transplantation - <i>Claire Counter</i></p> <p>Debate - This house believes that recent advances in the treatment of diabetes will reduce the need for beta cell replacement therapies For: <i>Yee Seun Cheah</i> Against: <i>Rachel Thomas</i></p> <p>Duty to Report – the requirements <i>Jessica Porter, Head of Regulation, Human Tissue Authority (HTA).</i></p> <p>O31: Socioeconomic Disparities in Kidney Transplant Outcomes: An Analysis of England and Northern Ireland (2000-2020) - <i>Michael Corr</i></p>	<p>Introduction - <i>Ginny Quan</i></p> <p>MAiD: Where are we now? - <i>Victoria Banwell</i></p> <p>Legal and ethical implications of organ donation after MAiD – <i>David Shaw</i></p> <p>Panel Discussion: <i>Ginny Quan, Victoria Banwell, David Shaw, Jo Cox, Ian Thomas, Kim Wiebe</i></p>
	Auditorium 2	
15:05-15:35	<p>Keynote Presentation <i>Chairs: Tom Billyard & Richard Baker</i></p> <p>Donation after medical assistance in dying – the Canadian experience - <i>Kim Wiebe</i></p>	
15:35-15:45	<p>Closing remarks <i>Krish Menon & Derek Manas</i></p>	

WEDNESDAY 12 MARCH 15:30

MODERATED POSTERS – MINI ORALS

Prog. No	Title	Presenting Author
MP001	Outcomes of simultaneous pancreas and kidney transplantation from older donors-the UK transplant registry analysis	Jeevan Gopal
MP002	Cancer risk in kidney transplant patients in Scotland: a national registry analysis	Ailish Nimmo
MP003	A simple test of walking speed at the time of kidney transplant preassessment predicts likelihood of positive cardiac investigations and activation on the waiting list	Pranav Satish
MP004	Predictors of kidney graft survival from donors with acute kidney injury (AKI): A retrospective NHSBT data analysis. Epidemiology in Transplant Study Group Initiative.	Umair Asad
MP005	Exploring the role of an implantable Doppler probe as a blood flow-monitoring device in kidney transplant: A feasibility randomised controlled trial	Shahzar Malik
MP006	Enzymatic conversion of blood group O human kidneys to rare Bombay type	Serena MacMillan
MP007	The ASK Trial: an NIHR-funded hybrid effectiveness-implementation trial of a patient and family outreach service to improve AccesS to living-donor Kidney transplantation	Pippa Bailey
MP008	“No One wants to Rock the Boat” Perspectives on clinical trials in failing kidney transplants: findings from the IN-FAKT study	Pippa Bailey
MP009	Activity book for children whose family member are placed on transplant list	Jolanta Kwinta
MP010	Implementation of an educational initiative: web-based coaching for the approach conversation of organ and/or tissue donation.	Sarah Plant

MP011	The impact of Simulation-based learning on organ donation in a multispecialty setting	Roselinmary Benedictfex
MP013	Distrust, mistrust, and misinformation: Barriers to deceased organ donation in India	Britzer Paul Vincent
MP014	Establishing a structured training program for normothermic regional perfusion for the perfusion specialist in Cardiff	Al Croose
MP015	Clinical Leads for Organ Utilisation (CLUs): a UK survey to capture the successes, challenges and future direction for the CLU scheme	Carrie Scuffell
MP016	Modelling geography and travel time for optimising the location of potential Assessment Recovery Centres in liver transplantation	Gwilym Webb
MP017	Living donation and pre-emptive transplantation is more important than HLA matching in paediatric kidney transplantation: a 33-year Comparative OPTN study	Alicia Paessler
MP018	Generation of antigen-specific human regulatory B cell therapy to improve outcomes in transplantation	Adam McNee
MP019	Plasma proteome changes over the course of abdominal Normothermic Regional Perfusion (NRP) reveal decrease in complement activation and increase in cellular detoxification processes	Letizia Lo Faro
MP020	Effects of a novel RIPK1 kinase inhibitor delivered during static cold storage or hypothermic machine perfusion in porcine models of kidney ischaemia-reperfusion injury	Azita Mellati
MP021	Transplant Assessment and Relative Opportunity Tool (TAROT) readings – 2-year outcomes	Adrienne Seitz
MP022	Tumour-Necrosis Factor (TNF)- α in deceased kidney donors is associated with poorer short- and long-term transplant outcomes	Annie Mae Goncalves-Bullock
MP023	EMPIRIKAL-2: Efficacy of MirococePt in reducing delayed graft function in the kidney allograft	Fayyad Jaradat
MP024	Unravelling the role of host ion channels in BK Polyomavirus (BKPyV) infection	Gemma Swinscoe

THURSDAY 13 MARCH – 16:20

Prog. No	Title	Presenting Author
MP025	Long-term outcomes of paediatric kidney transplants from DCD donors are comparable to those from DBD donors: a 33-year comparative OPTN study	Alicia Paessler

MP026	The impact of donation after circulatory death (DCD) donation on liver allograft survival is influenced by donor race: An UNOS registry analysis	Afolarin Otunla
MP027	Lactate concentrations during normothermic ex-situ heart perfusion do not correlate with primary graft dysfunction after DCD heart transplantation	Sri Aurovind
MP028	Inter-rater variation in visual quality assessments of donated livers and kidneys among consultant and trainee transplant surgeons	Georgios Kourounis
MP029	Experience of hypothermic oxygenated machine perfusion for liver transplantation and Ex-vivo liver resection	Bhargava Chikkala
MP030	Observations from discarded livers after Normothermic machine perfusion. Can we improve graft utilisation?	Satheesh Iype
MP032	A pilot 'Physiotherapist in organ donation' (POD) role to improve staff confidence in the respiratory management of patients on the organ donation pathway	Stefka Taneva
MP033	A nursing perspective on Enhanced Recovery after Surgery (ERAS). Focusing on the implementation of ERAS in renal transplantation in the United Kingdom (UK)	Jessica Stockley
MP034	Enhancing transplant education: a trainee-led initiative	Hannah Gillespie
MP035	Enhancing anaesthetic management for deceased organ donation: A training programme for anaesthetists in training	Kamal Berechid
MP036	Supporting trainee representatives in organ donation (TRODs): an educational perspective	Jill Featherstone
MP038	Self-reported immunosuppression medication adherence predicts eGFR at 12 months in kidney transplant recipients: a single centre cohort study	Rosie Heape
